

Electrical China 2008

ELEC 中国国际电工展

The 5th International Exhibition on Electrical Engineering,
Electrical Equipment and Contractors' Supplies
第五届国际电机工程及电工装备展览会

2008 · 11 · 12 - 14

China International Exhibition Centre, Beijing, PR China
中国·北京·中国国际展览中心

Sponsor 主办单位

China Electricity Council 中国电力企业联合会

Organizers 承办单位

China Electricity Council International 中国电力企业联合会国际合作部
Electric Power Industry Office of China Council for the Promotion of International Trade
中国国际贸易促进委员会电力行业委员会

Overseas Organizer 海外组织单位

Adsale Exhibition Services Ltd. 雅式展览服务有限公司

Supporters 支持单位

State Grid Corporation of China 国家电网公司
China Southern Power Grid Co., Ltd. 中国南方电网有限责任公司
Chinese Society of Electrical Engineering 中国电机工程学会
Power Supply Association, China Electricity Council
中国电力企业联合会 - 供电分会
China 238 Large Scale & Medium-Sized Power Supply Enterprises
全国238家大中型供电企业

Concurrent Events 同期举行

The 12th International Exhibition on
Electric Power Equipment and Technology
第十二届国际电力设备及技术展览会

2008 International Exhibition on Energy Conservation,
Environmental Power and Desulfurization & Denitrification
2008国际节能、电力环保及脱硫脱硝装备展览会

GLORIOUS FUTURE FOR THE ELECTRICAL INDUSTRY 电工行业发展前景令人振奋

The significant development of China's electric power Industry has accelerated the continuous development of the electrical industry. Both production and sales volume within the electrical industry are experiencing speedy growth. In year 2006, the total industry output tapped RMB14, 590.78 billions, up 33.41% over the previous year.

- Power generation equipment: Total output reached 110GW, setting the highest record ever;
 - Power transmission, distribution & control equipment: Total sales revenue reached RMB3, 836.16 billions, an increase of 32.61%;
 - Transformer: Total production reached 13, 645 million kVA;
 - High-voltage breaker: 20% output growth over the same period of last year;
- It is expected that industrial output of 2007 will achieve RMB16, 560 billions, a 20% growth over the remarkable result of 2006.

To tripe the effectiveness of the exhibition, the "5th International Exhibition on

Electrical Engineering, Electrical Equipment and Contractors' Supplies" will be concurrently held with the "12th International Exhibition on Electric Power Equipment and Technology" and the "2008 International Exhibition on Energy Conservation, Environmental Power and Desulphurization & Denitrification".

国家电力工业高速发展推动了电器工业的持续发展，产销均保持高速增长。2006年电器工业实现工业总产值为14,590.78亿元人民币，同比增长33.41%。当中发电设备产量达到1.1亿千瓦，创历年来最高；输变电设备也硕果累累，输配电及控制设备销售收入达3,836.16亿元人民币，同比增长32.61%；变压器产量达到13,645万kVA；高压断路器产量亦比上年同期增长20%。预计，2007年电工业总产值将达到16,560亿元人民币，同比2006年再增长20%。

"第五届国际电机工程及电工装备展览会"将与"第十二届国际电力设备及技术展览会"及"2008国际节能、电力环保及脱硫脱硝装备展览会"同期举行。三个相关展会所产生的协同效应，将大大提高展商参展效益。

MAJOR PAST EXHIBITORS

往届主要参展商

- ABB
- Schneider Electric 施耐德电气
- Hager Electric 海格电气
- Chint 正泰电器
- Siemens 西门子
- Shihlin Electric 士林电机
- Nexans 耐克森电气
- SOCOMEC 湖高美索克曼电气
- ILME
- Pfisterer 费斯德电气
- Ormazabal 欧玛嘉宝开关
- NRG 安瑞吉开关
- Tamco 泰高开关
- Rittal 威图电子机械
- Mennekes 曼奈柯斯电器
- Thomas & Betts
- Mitsubishi Electric 三菱电机
- EFEN 埃芬电器
- Harting 雅迪

WHOM YOU WILL MEET 对口观众

- Building Contractors / Engineering Firms 建筑工程公司
- LV Electrical Contractors 低压电气承建商
- Contractors – Infrastructure / Large Scale Projects 承建商 (基建工程/大型项目)
- Developers – Properties & Projects 房地产及基建项目发展商
- Electrical Installation Firms 电气安装工程公司
- Industrial Endusers 工业用户
- Electrical Equipment Manufacturers 电工设备制造商
- Power Supply Bureaux 供电局
- Research & Design Institute – LV & Building Electrical 低压电工研究院/建筑设计院(电气科)

SCOPE OF EXHIBITS 展品范围

Electrical Energy Conversion, Distribution & Storage

变电、配电及电力储存

- Transformers 变压器
- UPS Technologies 不间断电源技术
- Rectifier / Converter Systems & Equipment 整流器/变频器系统和设备
- Switching Equipment & Systems, Control Equipment 开关设备和系统，控制设备
- Power Switches, Load Switches & Busbars 动力开关，负荷开关
- Contactors & Contactor Combinations 电流接触器
- Low-Voltage Switchgear, Low-Voltage Distributors & Components 低压开关设备
- Power Circuit Breakers 断路器
- Inductive Resistors for Applications in Electrical Equipment 运用于电能设备中的感应电阻

Testing, Measurement & Control Equipment for Power Engineering

动力测控设备

- Measurement Control & Automation Systems for Power Engineering 电力测量和自动控制系統
- Testing & Measuring Equipment & Technology 仪器仪表技术
- Remote Control Systems 遥控作业系統

Power Transmission & Conduction

输电、导电设备

- Conductors & Wiring 导体、电线
- Power Cable & Fittings 电力电缆装置
- Insulators & Materials 绝缘体及材料
- Cable Laying, Storage & Processing Equipment 电缆的铺设、储存和处理设备

Power Electronics 电力电子

- Batteries & Switching Regulator ICs 电池组和开关的控制积体电路
- Electromechanical & Mechanical Components 电力电子配件

Building Electrical & Building System Technology

建筑电气、建筑系统技术及相关管线

- Fuses, Safety Switches, Earthing Materials 保险丝、安全开关和接地材料等电力材料
- Meter Boards, Series Installation Equipment, Distribution Systems 仪表仪器的安装、分配系統等
- Switches, Sockets, Plugs, Lamp Holders 开关、插座、差控和照明固定器等
- Cables and Wiring 电缆电线
- Technical Building Systems Technology, Management Systems, Engineering, Automation 建筑系统技术、管理系统、工程及自动化
